

Network Medical ***Occupational Health***

Here to Prevent, There when we're Needed

Call our 24/7 contact centre now: 0333 344 1335

Email: info@networkoh.co.uk

At **Network Medical OH**, we pride ourselves on providing a high quality service that's well-rounded and holistic to our clients needs.

We have a network of clinicians and specialists across the UK, so be sure we have you covered.

Most of our services can be delivered from one of our clinics or on-site, this allows our clinicians to be incorporated within your team and fully understand the working environment.

Specialising in:

Absence and Sickness Management

Health and Well-being

Preventative Health Schemes

Health Surveillance Programmes

Industry Related Medicals

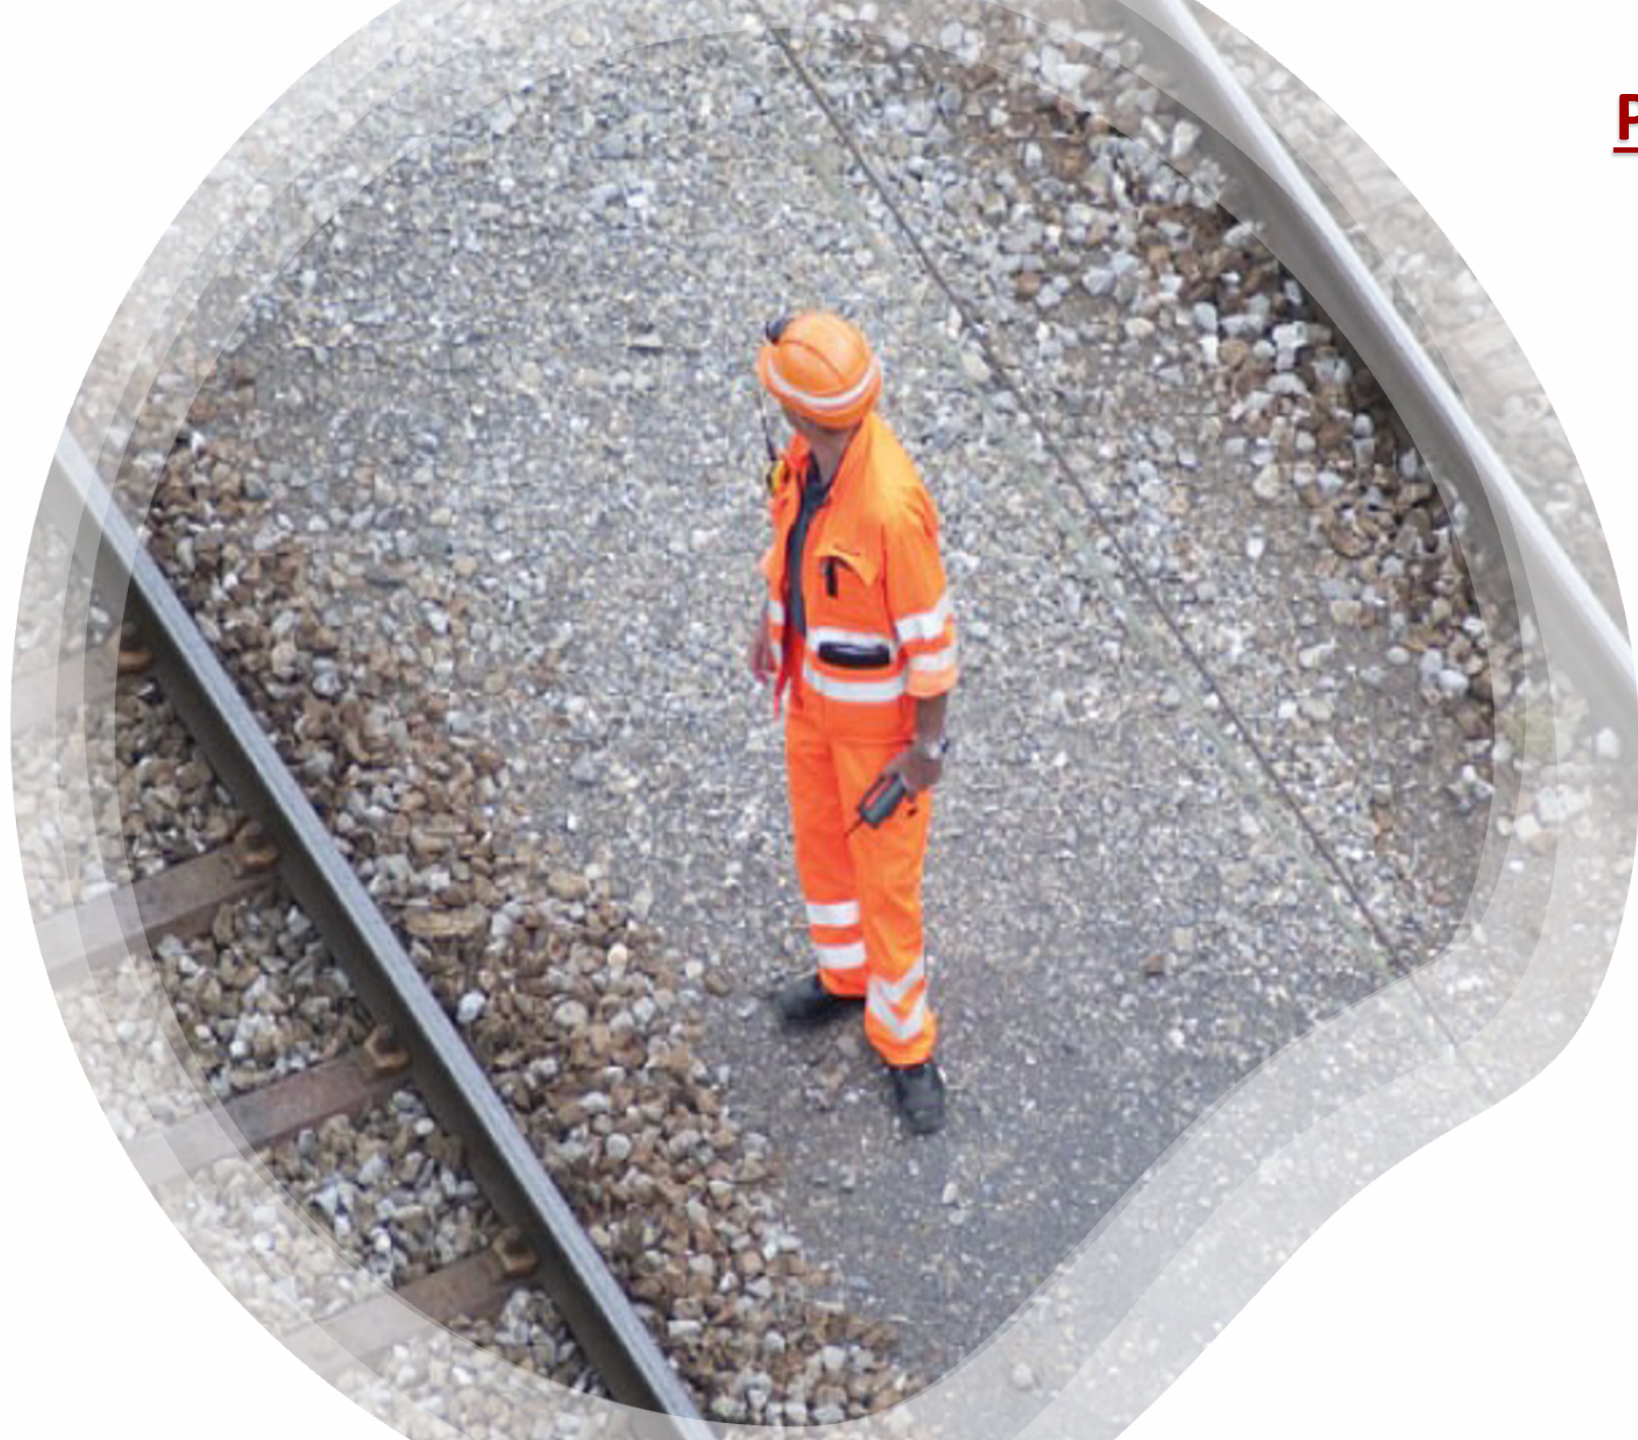

Case Management

Personal Track Safety and Rail Medicals

Our network of clinicians are ideally placed and experienced in providing '**Safety Critical Medicals**' to many industries, including the rail network.

Carrying out Health screenings and Clinical Assessments inline with industry standards, this information is then uploaded promptly to '**Sentinel**' to ensure compliance.

Our clinicians are also experienced in carrying out '**Drug and Alcohol**' testing through immediate results to Laboratory sampling.

Health Surveillance

For certain industries health surveillance is a legal requirement, this includes industries where workers are exposed to the following:

- Noise or Vibration
- Solvents, fumes, biological agents and other substances hazardous to health
- Asbestos, lead or working with compressed air
- Ionising Radiation
- Commercial Driving
- Confined Space
- Working at Height
- Night Shift Workers
- Healthcare – Exposure Prone Procedures

Clinical Assessments include:

- Spirometry
- Height, Weight and BMI
- Blood Pressure and Heart Rate
- Audiometry
- Vision/Visual Acuity
- Musculoskeletal & Mobility
- Urinalysis

Additional Services:

- Drugs & Alcohol Screening – Chain Of Custody
- Driver Ergonomic Assessment & Driver Medicals – Fork Lift trucks, Commercial, BlueLight Drivers
- Workplace Ergonomics – DSE assessment
- Environmental Monitoring – Accredited testing
- Sickness and Return to Work Support
- Specialist referrals - OH Physicians and more
- Occupational Vaccines
- Healthcare workers - Exposure Prone Procedures or Post-incident bloods
- Skin sensitiser assessments
- HR & Management Referrals
- Counselling
- Employee Assistance Programme (EAP)
- Physiotherapy
- Occupational Health Clinician Recruitment and Agency placement
- Training - Occupational Health Technician, First aid at work, Mental Health First Aid courses
